Professional Summary

A highly motivated and passionate **Python Developer** and **Data Scientist**, with a solid foundation in **Artificial Intelligence** and **Machine Learning**. Equipped with practical experience through internships and academic projects, I possess strong technical skills in **Python**, **Flask**, **HTML/CSS**, **JavaScript**, **MongoDB**, and **Power BI**. I have a keen interest in building innovative solutions, particularly in web development and data analysis. Eager to leverage my expertise and continue growing in dynamic environments where I can contribute and learn from cutting-edge technology.

Education

- | | |
|---|--------------------|
| Ganpat University
<i>BTech in Computer Science (with specialization in Artificial Intelligence)</i> <ul style="list-style-type: none">◦ CGPA: 7.1 | <i>2021 – 2025</i> |
| Narayana Junior College
<i>Degree in Inter Board - MPC</i> <ul style="list-style-type: none">◦ Percentage: 77 | <i>2019 – 2021</i> |
| J. Sikile School
<i>Central Board Of Secondary Education</i> <ul style="list-style-type: none">◦ Percentage: 81 | <i>2018 - 2019</i> |

Experience

- | | |
|--|----------------------------|
| Python Programmer Intern
<i>TechAlpha</i> <ul style="list-style-type: none">◦ Developed a Notes app and a URL shortener using Python, Flask, HTML, CSS, and JavaScript.◦ Gained hands-on experience in full-stack development, integrating both backend and frontend technologies.◦ Enhanced problem-solving and debugging skills through real-world applications.◦ Strengthened proficiency in web development and improved collaboration and version control using Git.◦ Worked closely with a mentor to learn best practices in clean code, testing, and scalable application design. | <i>May 2024 – Aug 2024</i> |
|--|----------------------------|

Projects

- | |
|--|
| Job Recommendation System <ul style="list-style-type: none">◦ Developed a Recommendation system where multiple users can upload there Resume on a website and by using NLP techniques and algorithms like TF-IDF vectorization and Cosine similarity. I have trained a model to Recommend jobs the user are suitable for according to there resume. This model gave 82 Percent Accuracy in recommending the job.◦ Tools Used: Python, Flask, Pycharm |
| Used Car Resale Price Prediction <ul style="list-style-type: none">◦ Developed a machine learning model to predict the resale price of used cars based on various factors such as make, model, mileage, year, and condition.◦ Preprocessed data using techniques like handling missing values, feature scaling, and one-hot encoding to ensure data readiness for modeling. |

Technologies

Languages: Python, JavaScript, SQL, CSS

Technologies: Flask, Mongoddb, Power BI , NumPy, pandas, scikit-learn, matplotlib, Git
